## A FEW FAQs ABOUT YOUR MATERNITY SESSION

### *The Best Time:*

We know that bellies come in all shapes and sizes but the most ideal time is at 31 TO 35 WEEKS. Please book your session EARLY and don't wait until the last minute because I usually get fully booked 2-3 weeks ahead of time.

### *What to Expect:*

I try to make sessions as relaxed as possible. It takes about 30 MINUTES TO 1 HOUR depending on the set-ups. You may invite your HUSBAND (or not) whichever makes you feel most comfortable. I include hubbies in a few shots (if they are willing). If your husband will join the session, please assure him that he may have his shirt on for the photos (not everyone is comfortable shirtless and I understand that).

### *What to Wear PRIOR to the Session:*

It is important that your skin is smooth for the photos. Please wear LOOSE CLOTHING (ex. loosen bra / underwear / pants) so that your skin doesn't mark at least 2 hours prior to the shoot.

You may have your HAIR and MAKE-UP done prior to the shoot. We do not provide this service however I can recommend a good make-up artist and stylist if needed.

# Things to Bring for the shoot:

- OUTFITS are critical to any professional shoot. This is an investment on your part so a little preparation is needed.
- 1 BLACK & 1 BEIGE bandeau bra & SAME COLOR yoga pants or thick leggings or jeans for bottoms. Please bring options so I can choose the best one.
- Full body and belly HUGGING DRESSES are also encouraged. Please make the colors match the gender of your baby.
- I do have my own CLOTHS and minimal PROPS but feel free to bring your own if you want to be more unique. Your CREATIVE INPUT is also very welcome.
- ACCESSORIES can help complete your outfit (chunky necklaces and bangles look very nice in pictures).

She is barefoot and standing against a black background, gently holding her belly with her right hand and the fabric of her dress with her left hand. # MORE INSPIRATION

for your Maternity Session

## FAMILY

Celebrate the coming of your newest family member!

Invite your husband and children to join the photo shoot and do different poses highlighting mommy's belly. It's always better when you're together!

## PROPS

Make your session unique with your own props.  
(ex. your wedding veil, little shoes, your 3D ultrasound, a rattle,  
cloths and wraps, flowers, etc.)

## NUDE

Some clients want to have more artsy photographs in the nude. It's really all about what you want and how comfortable you are with your body. Please let me know in advance if you want some incorporated into your studio session. Take note that we don't do heavy editing on photos (ex. removal of clothing, love handles etc.) but we do clean / edit skin tone and remove stretch marks (if any), so you need not worry.

I LOOK FORWARD  
TO MEETING YOU SOON!
